on Planet Earth.**

INDIA: A Study Of Contrasts

- Land of a billion people

- 1/3 of world's chronically malnourished children (as defined by UN)
- Almost every 3th male and every 2nd female is practically illiterate
- More than 300 million still sleep with just one meal a day

INDIA: A Study Of Contrasts

- Biggest democracy with 700 million voters
- >6% growth rate for ten years in row, recession means 6% growth
- One of the five countries with GSLV technology
- Back office of the world with the biggest BPO industry
- A nuclear powerhouse

INDIA: A Study Of Contrasts

- 20 official languages
- More than 100 major and 2000 minor dialects
- 29 states and 7 union territories
- 7 major religions
- More than 500 major and 3000 minor social caste groups

INDIA: A Study Of Contrasts

YES, it is true that we have more than 300 million people living in extreme poverty, who get to eat only one meal a day, or worse, they just don't get it.

INDIA: A Study Of Contrasts

BUT, that did not stop us to dream big and work hard to have a space mission on Mars or to become a global leader in Satellite launch missions.

INDIA: A Study Of Contrasts

YES, it is true that almost every 4th Indian as on today is practically illiterate. As we talk there are no less than 84 millions kids who are not in School.

INDIA: A Study Of Contrasts

BUT, that did not stop us to establish world class technical education institutions like IITs or IIMs. Or the rural and tribal schools to open up the horizons.

INDIA: A Study Of Contrasts

Just in case, if you have never heard about IITs, they stand for Indian Institutes of Technology. Out of the thousands of their students, let me put just a few of them on your screen..

So, here is the quiz:
These 6 ex-IITans most probably influence your everyday day life in more ways than one.

I doubt you ever heard their names, but let's see if some of us can manage any top of the mind recall...

INDIA: A Study Of Contrasts

India can surprise you in more ways than one.

The Slumdog Millionaire is not just a story. It's about a billion odd dreams. Getting realised, one dream at a time.

SO WHAT EXACTLY SHOULD YOU EXPECT WHEN YOU ARE IN INDIA?

RICH INDIAN CULTURE & HISTORY

A VIBRANT DEMOCRACY

EXTREME POVERTY

TECHNOLOGY

ILLETERACY

AND..

INCREDIBLE HOSPITALITY.
